Experience You Can Trust!

At Physicians Aesthetics and Atlanta Medical Day Spa and Surgery Center, we understand the importance of feeling confident and looking your best. We have been family owned and operated for over two decades and have the expertise to help you achieve the results you desire. Our team of professionals is dedicated to helping you look and feel your best, providing you with the highest quality of Cosmetic Surgery and Dermatology services. With our experience and commitment to excellence, you can trust us to provide the highest level of care.

Meet Dr. Debra Atkins

Dr. Debra Atkins is the Medical Director of Physicians Aesthetics. Two great locations in Georgia are available to serve you: the East Cobb location in Marietta as well as a location in the heart of Buckhead. Physician's Aesthetics is a center for cosmetic, medical, and surgical dermatology. Your well-being complimented by your outward appearance is our first priority! We are on the cutting edge, providing comprehensive care for you and your overall appearance. Dr. Atkins, the founder of Physicians Aesthetics, is a well-published and respected leader in her community. "Experience you can trust!" Dr. Atkins is board-certified with the American Board of Anti-Aging and Regenerative Medicine. She received her medical degree from the University of New Mexico School of Medicine and her Master's of Business with a concentration in Medical Services Management from the Johns Hopkins University School of Medicine and School of Continuing Studies. She did her residency in Internal Medicine with a focus on Dermatology, Preventative medicine followed by a fellowship in Aerospace Medicine.

INJECTABLE TREATMENTS

INJECTABLE TREATMENTS

BOTOX / XEOMIN / DYSPORT

Fine lines & wrinkles are no match for Botox, Xeomin and Dysport! These safely injected anti-aging wrinkle treatments are most used to relax facial muscles that cause frown lines, crow's feet and many other areas of the face where soft creases of the skin have started to stick around at rested expression.

FACIAL FILLERS

Looking to enhance the fullness of your lips, balance your facial profile, or restore loss volume? The aesthetic industry's catalog of dermal fillers can be intimidating – and facial structures are so unique – which is why we're here to walk you through every step of the way in finding the absolute best treatment for your desired results.

Dermal fillers like Juvederm, Restylane and Radiesse are specifically formulated to enhance targeted areas, considering facial structure and aesthetic balancing.

KYBELLA

If there's an inch to pinch, lets talk about Kybella: the only FDA-approved injectable treatment that permanently destroys fat cells under the chin (a/k/a "double chin") for a gradually improved profile. This injectable treatment isn't limited to that submental area either – we've used Kybella to successfully address jowls, bra fat ("bat wings") and small areas of abdominal fat that won't budge with diet and exercise. No surgery, no scarring or downtime, though temporary mild to moderate swelling in the area can be expected as the body responds, and fat cells begin to flush (literally). Typical Kybella treatment includes two to four injectable appointments.

Botox for Temporomandibular Disorders (TMJ)

The temporomandibular joint (TMJ) is a joint that connects the lower jaw to the skull, and is responsible for the normal movement of the mandible. There are two TMJs, one on each side of the jaw, and they are among the most complex joints in the body.

What is TMJ?

Temporomandibular disorders (TMDs) are a group of conditions that can cause pain and dysfunction in the jaw joint and muscles.

Symptoms of TMJ disorders include:

- Swelling on the side of the face
- Toothaches
- Earaches
- Headaches or migraines
- Dizziness
- Numbness or tingling in the fingers
- Neck aches
- Pain in the upper shoulders

BEFORE AFTER
